

National Severe Weather Warning Service

Chief Forecasters Assessment

A frontal zone moving across the Atlantic this weekend is expected to extend eastwards across southern UK later on Sunday before clearing away southeastwards during Monday. Associated rain is likely to be heavy at times with accumulations typically between 10 and 20 mm and locally close to 30 mm. Conditions will also become rather windy in English Channel coastal areas where gales may develop for a time during Sunday evening and the early hours of Monday.

The Met Office have issued a **Yellow Alert of Rain**

Valid from **18:00 on Sun, 03rd Nov 2013** until **12:00 on Mon, 04th Nov 2013**

Rain, heavy at times, is expected to spread eastwards across southern UK later on Sunday before clearing during Monday. This additional rainfall, following recent wet weather, means that the public should be aware of the risk of localised flooding.
